Susuz Mah. Hisar Cad. 43-A/15

Yenimahalle, Ankara, Turkey

EDUCATION

Master's Degree <i>Music and Performing Arts (Ongoing)</i>	2024 – Present
Yildiz Technical University	Istanbul, Turkey
Master's Thesis (Ongoing): Development of a Mobile Application for Determining the Physical Properties of Woods Used in Musical Instrument Making	
Bachelor's Degree <i>Music Technologies (Sound Engineering)</i>	2019 – 2023
Yildiz Technical University, Faculty of Art and Design	Turkey
Bachelor's Degree <i>Science and Technology Education (Secondary Level)</i>	2004 – 2008
Selcuk University (Teacher Training Program)	Konya, Turkey
Minor Studies <i>Mathematics Education</i>	2004 – 2008
Selcuk University	Konya, Turkey

WORK EXPERIENCE

Specialist Teacher	2025 – Present
Turkish Ministry of National Education	Ankara, Turkey
General Directorate of Higher Education and Overseas Education	
- Assigned to the Department of Overseas Education. - Contributes to educational planning and implementation in national and international education contexts.	
Science Teacher	2014 – 2025
Turkish Ministry of National Education, Science and Art Centers (BILSEM)	Istanbul, Ankara, Yalova, Turkey
- Delivered science instruction and project-based learning activities for gifted students. - Mentored student research, innovation, and competition projects. - Conducted interdisciplinary STEM-focused educational activities.	
Science Teacher	2010 – 2014
Turkish Ministry of National Education, Public Middle Schools	Yalova, Turkey
Taught middle school science and supported students' academic development.	
Porsche AG (Remote) – Freelance CAD Designer (AutoCAD)	Mar. 2023 – Oct. 2023
Büchner Projekt & Management GmbH	Germany–Stuttgart/Weissach
Remote technical drawing support for projects carried out inside the Porsche factory in Stuttgart.	
Commission Member, STEM Activity Book Preparation	2014 – 2020
Ministry of National Education, General Directorate of Special Education and Guidance Services	Turkey
Turkey BILSEM Science Coordinator	2014 – 2020
Ministry of National Education, General Directorate of Special Education and Guidance Services	Turkey
Project Coordinator / Principal Investigator (TUBITAK 4007)	2023
"Science, from Maltepe to Kahramanmaraş" – Funded Outreach Project	Turkey
- Led and completed a TUBITAK 4007 project under the "Science Everywhere" special call for earthquake-affected regions. - Managed project implementation with approximately \$3,500 grant funding.	
TUBITAK C-STAR Internship Research Scholarship Researcher (TARLA)	2024 – Present
Turkish Accelerator and Radiation Laboratory (TARLA)	Turkey
Composer / Soundtrack Artist – The MilkyWay	2025
Creative Work	

HONORS AND AWARDS

TUBITAK 2204-A High School Research Projects Competition – Europe Region 1st Prize (Software) 2019
Regional award in the Software field

TUBITAK 2204-A High School Research Projects Competition – Europe Region 1st Prize 2024
Regional first-place award

TUBITAK 2204-A High School Research Projects Competition – Europe Region 3rd Prize 2019
Regional third-place award

TUBITAK 2204-A High School Research Projects Competition – Turkey Finals 2nd Prize (History) 2024
National finals award in the History category

Asia Region 1st Prize

Competition / project award (as listed in CV notes)

COMMUNITY INVOLVEMENT

STEM Educational Content Development 2014 – 2020
Ministry-level commission work for national STEM activity resources Turkey

Science Education Coordination (BILSEM) 2014 – 2020
National coordination support for science education activities Turkey

Student Research and Competition Mentorship 2010 – Present
Mentoring in science, software, and interdisciplinary student projects Turkey

PUBLICATIONS

Relationship Between Electric Field Value and Psychological Resilience Levels of Shopping Mall Staff and Customers. **DOI:** 10.52096/usbd.7.32.35

Creating Authentic Structural Elements With 3D Printers Using Photogrammetry Methods in Historical Artifact Restorations. **DOI:** 10.29228/SOBIDER.80769

Creation and Comparison of Acoustic Environments by Utilizing Existing Facilities in Learning Environments. **DOI:** 10.52096/usbd.7.32.39

INVENTIONS AND PATENTS

Remote-Controlled Tactical Rescue Vehicle

Smart, Remotely Steerable Grenade

Rapid Wound Healing Sponge with Natural Components (Advanced Wound Care Dressing Infused with Bio-Based Agents)

BIO-WRAP – Bio-Active Self-Cooling Rapid Bandage

EXO-STEP – Field Walking Support Apparatus (Rapid Evacuation in Distal Leg Injuries)

SENTINEL-500 – Mobile Explosive Detection System (Portable, On-the-Move IED Detection – 500 m Radius, Scalable)

Minimal Invasive Unilateral Multiplanar Fixator (Double-Layered, Three-Legged, Single-Sided Bone Fixation Device)

Pedicle Screw Guide-HT (PSG-HT) (High-Tissue Sensitivity Electromechanical Guidance System)

EPIGUIDE (Device for Epidural Space Detection and Anesthesia Support)

Arthro Needle Guide (ANG) (Intra-Articular Injection Navigation System)

Intramedullary Implant Coordinate Locator (Distal Locking System for Bone Fixation)

Ramp Brake System (Patent)(Turkish Patent and Trademark Office)

Extendable and Retractable Functional Pencil Compass (Utility Model)(Turkish Patent and Trademark Office)

SELECTED STUDENT RESEARCH PROJECTS (MENTORED)

Middle School Level

Investigating the Addition of an MEBBIS Module (EMMT Module) for Public Savings Measures in Educational Institutions

Effects of Different Cleaning/Washing Agents Used for Textile Products on Fabric Type and Fabric Color

Investigation of the Effect of Acetate Placed Between Double Glazing on Solar Energy Transmission

Investigation of the Effects of Different Outdoor Frequency Values on Triticum (Wheat) Plants

Investigation of the Effect of Plexiglass Material on Double-Glazing Insulation

Child Hat Design for Preventing Heat Stroke

Secure Camping Tent Design Against Predatory Animals

Improving Energy Conversion Efficiency by Recovering Photovoltaic Cell Efficiency Loss at High Temperatures

Design of an Ice-Alternative Device for Cold Compress Applications

Investigation of a Natural Pesticide Produced from Aloe Vera for Hydrogels Used in Soilless Agriculture

High School Level

Investigation of the Effect of Rice Husk Ash-Added Glass Produced by the Fusion Method on the Energy Efficiency of Photovoltaic Cells

Smart Diagnostic System Before Doctor Examination in Ear, Nose and Throat (ENT) Units

Investigation of the Use of Electrospun Sodium Alginate and Hyaluronic Acid Nanofibers in Plant Grafting

Investigation of Restoration/Renewal Studies in Historical Artifacts Using AI-Supported Image Processing Technologies and 3D Printers

Investigation of the Effects of Different Frequency Levels in Outdoor Environments on Triticum Plants

Investigation of the Mechanical Strength Enhancement Effects of Ultraviolet Radiation on Polylactic Acid (PLA)

Investigation of Indoor Noise-Canceling System Applications Based on the Phase Inversion Principle of Sound

Investigation of a Direction-Sensitive Portable Radiation Detector Using SiPM and Plastic Scintillator Geometry
